

# IMWA 2027 sponsorship opportunities

Mining Legacy and Opportunities • Košice, Slovakia • 6–9 September 2027

## About the Conference

**The International Mine Water Association (IMWA) Annual Conference** is the world's leading event dedicated to mine water management, mine closure, environmental remediation, water treatment technologies, and sustainable mining practices since 1979.

**IMWA 2027 will bring together up to 350 delegates** from academia, mining companies, consulting firms, government agencies, environmental organizations, and technology providers from across Europe, North America, South America, Africa, Asia, and Australia.

Hosted by the **Institute of Geotechnics of the Slovak Academy of Sciences** in the historic city of Košice, the conference will focus on:

- Mine water treatment and remediation
- Water management in active and abandoned mines
- Environmental monitoring and sustainability
- Resource recovery and circular economy approaches
- Mining heritage and future opportunities
- Innovation in mining and environmental technologies

The conference theme, "**Mining Legacy and Opportunities**", reflects the industry's challenge of addressing historical mining impacts while developing innovative solutions for a sustainable future.

*Conference venue Double Tree by Hilton in the historic city center of Košice*

## **WHY SPONSOR IMWA 2027?**

### **Access to Key Decision Makers**

Meet professionals directly involved in mine water management, environmental compliance, mine closure, engineering design, consulting, and technology procurement.

### **Global Visibility**

IMWA conferences attract participants from more than 30 countries, offering sponsors international exposure across the mining and environmental sectors.

### **Highly Targeted Audience**

Unlike large mining trade shows, IMWA provides direct access to a specialized audience actively seeking innovative technologies, equipment, consulting services, and environmental solutions.

### **Strong Industry-Academic Network**

The conference uniquely combines industry practitioners, researchers, regulators, and consultants, creating opportunities for collaboration, recruitment, and business development.

### **Prestigious Venue**

Košice is Slovakia's second largest city and gateway to historic mining regions, UNESCO heritage locations, modern industrial facilities and exceptional cultural experiences. It is located in one of Europe's historic mining regions, provides a memorable setting that strengthens sponsor visibility and participant engagement
